

## ***System and Unit Test Report***

Product Name: Okinawa Memory Initiative, Team Name: Okinawanners

### ***System Test Scenarios***

#### **Sprint 1:**

A. User story 1 from sprint 1: As a user, I want to be able to use the website, view the pictures, and to be able to see the following pages: Home, About, Vault, Documents, Events, Donate, and Gail Project.

Scenario:

1. Go to website and see the different tabs on the header (extends from middle of screen to the right side of the screen)
2. Navigate through and be able to select the designated tabs
3. The user can hover on the tabs and be able to see a dropdown of the tabs (i.e. vault page includes the gallery)

B. User story 2 from sprint 1: As a user, I want to be able to see the documents from the database.

Scenario:

1. Click the documents tab and be able to see various documents
2. User sees scanned copies and photos of historically archived documents
3. User can search the documents by specific categories

#### **Sprint 2:**

A. User story 1 from sprint 2: As a user, I want to be able to navigate the website, so that I can reach the other pages through header and footer. I want to see who was in development of the Okinawa project so that they get proper recognition.

Scenario:

1. Navigate website through the tabs on the header
2. See the footer on the bottom which lists the Okinawa Memory Initiative credentials

B. User story 2 from sprint 2: As a user I want to be able to view videos and pictures within the gallery and related content within that category. I want to be able to see a homepage with a map.

Scenario:

1. Click the gallery tab and view Okinawa related multimedia in the form of pictures and videos.
2. Be able to navigate the gallery by clicking the right arrow/left arrow slider.
3. User sees the interactive Okinawa homepage by clicking the "Home" tab; can

pinpoint different Okinawan towns by hovering over the pins on the map

### **Sprint 3:**

A. As a user, I want to be able to use the website and to be able to see the following pages: Home, About, Vault, Documents, Events, Donate, and Gail Project.

Scenario:

1. Navigate website through the tabs on the header.
2. User can access Home, about, Valut, Documents, Events, Donate, and Gail Project page through the header.

B. As a user, I want to be able to see the documents from the database, and search within the database.

Scenario:

1. Navigate website through the tabs on the header.
2. Access documents page on the header.
3. User can view and search documents from the database via documents page.
